PUJA MANGALE

pujamangale@gmail.com | +919370002827 | LinkedIn | Github

I am a motivated and dedicated Bachelor of Engineering (BE) student specializing in full-stack development. With a strong passion for programming and problem-solving, I possess a comprehensive skill set in designing, developing, and deploying web applications. As a full-stack developer, I excel at both front-end and back-end development. I have hands-on experience in creating intuitive user interfaces using modern front-end technologies

EDUCATION

- **BACHELOR OF ENGINEERING** (B.E) Major in Information Technology
  Savitribai Phule Pune University | 2020 – 2024
- **SENIOR SECONDARY (XII)** Major in Computer Science
  Modern College of Arts Commerce and Science | 2017 - 2019

TECHNICAL SKILLS

- Programming Languages: Python, Java, PHP
- Web Stack: HTML, CSS, Bootstrap, JavaScript, ReactJS, NodeJS, ExpressJS
- Databases: MySQL, MongoDB
- Miscellaneous Libraries/Tool: Git, Linux, Postman, Figma, Canva
- CMS: WordPress

INTERNSHIPS

- **Full Stack Web Development & Design Intern**, Cerina   Certificate | Feb 23 – Jun 23
  As a full-stack developer intern, my responsibilities primarily revolve around developing web applications using a combination of PHP for the backend and HTML, CSS, and JavaScript for the frontend. I actively collaborate with a team of developers and utilize GitLab for version control and project management.

- **Web Development Intern**, Mikhvision Digi Solutions Pvt. Ltd   Certificate | Aug 22- Nov 22
  As a web developer intern, my primary role was to create web pages and designs using a combination of basic web technologies and WordPress. I actively participated in developing and maintaining websites, ensuring their functionality, aesthetics, and user experience

- **Web development Intern**, Enduring Web Solutions Pvt. Ltd   Certificate | Aug 22 - Sept 22
  During my internship, I utilized fundamental web technologies such as HTML, and CSS to build visually appealing and responsive web pages. In addition to working with basic web technologies, I also gained proficiency in WordPress, a popular content management system (CMS).

PROJECTS

- **PERSONAL PORTFOLIO -** Website | Github

  Developed a visually appealing and responsive personal portfolio website utilizing HTML, CSS, and JavaScript to showcase skills and projects.

- **HOSPITAL WEBSITE (HACK THE WINTER 2023) -** Website | Github

  Hack The Winter Hackathon Project - Hospital website, developed using HTML, CSS, Bootstrap, and JavaScript, aimed to address the specific challenges faced by hospitals.

- **Multiplayer Tic-Tac-Toe Game using MERN stack -** Github

  It's a multiplayer tic-tac-toe game website where players can join or create room and invite other friends to play the game and even, they can chat through the chat section.

- **MIRACULOUS HER (MICROSOFT AZURE HACKATHON 2022) -** Website | Github
  MiraculousHer is a social platform aiming at providing educational and economic support for all skilled people.
